- 2014 Certified Technology
- Public Health Reporting
- Transitions of Care

❑ EHRs Meeting ONC 2014 Standards – starting in 2014, all EHR Incentive Programs participants will have to adopt certified EHR technology that meets ONC’s Standards & Certification Criteria 2014 Final Rule

- ✓ Your technology must be certified to the 2014 criteria that you will attest to
- ✓ You must ensure that it meets the required objectives for achieving Meaningful Use

Not Specific to a Meaningful Use Stage

- Electronic Submission to the KY Immunization Registry

- Syndromic Surveillance/ Admit Discharge Transfer (ADT) Monitoring to CDC

- Electronic Laboratory Reporting to DPH

- Ambulatory Submissions to the Kentucky Cancer Registry (KCR)

Kentucky Public Health

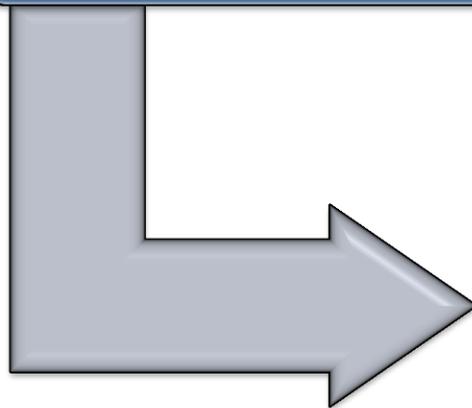

Prevent. Promote. Protect.

- Registration with the PHA or other body to whom the information is being submitted of intent to initiate ongoing submission was made by the deadline (within 60 days of the start of the EHR reporting period) and ongoing submission was achieved.
- Registration of intent to initiate ongoing submission was made by the deadline and the EP or hospital is still engaged in testing and validation of ongoing electronic submission.
- Registration of intent to initiate ongoing submission was made by the deadline and the EP or hospital is awaiting invitation to begin testing and validation

In Kentucky, your signed legal agreement(s) with KHIE represent your registration for public health measures

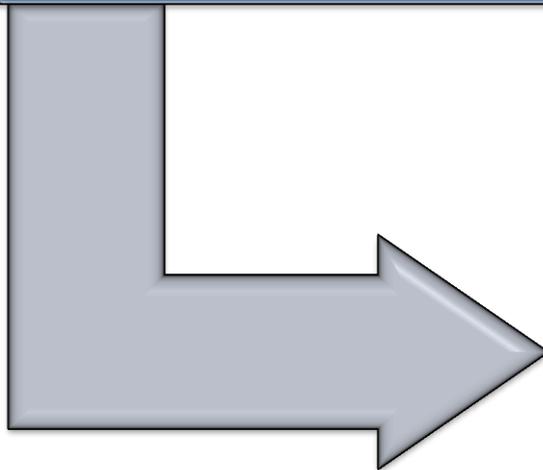

- Participation Agreement plus:
 - Immunization Registry Authorization
 - Syndromic Surveillance Authorization
 - Disease Surveillance Authorization (Electronic Laboratory Reporting)
 - Kentucky Cancer Registry Authorization

Failed Test: No longer
sufficient to satisfy
Meaningful Use
objective

Successful ongoing
submission is required

Can no longer take an exclusion if another Menu Objective is relevant to the care that you provide

Prior to 2014: OK to select Immunization Objective and take the exclusion

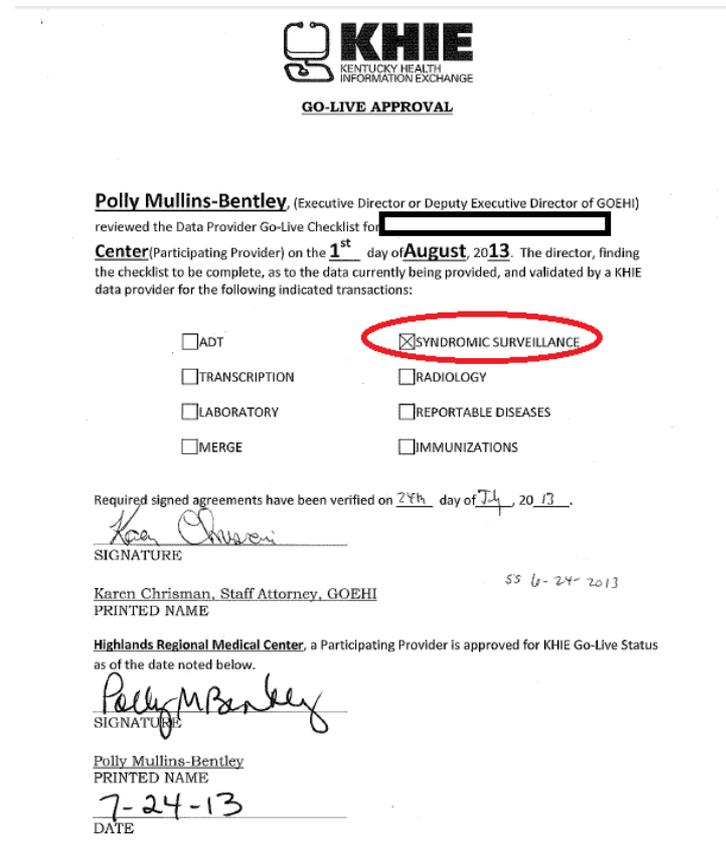

2014 and Beyond: If you don't give Immunizations, then you must select Syndromic Surveillance

- ✓ CDC BioSense supports it
- ✓ Core data required for syndromic surveillance are collected by any and all providers:
 - Facility information
 - Patient information
 - Visit/Encounter information

- 1) Make sure you have a signed Participation Agreement and appropriate addendum(s) on file with KHIE
- 2) You must be either in KHIE's onboarding queue or live on KHIE for the public health objective(s) that you are attesting to

You should have received a Go-Live Approval form from KHIE

KHIE
KENTUCKY HEALTH
INFORMATION EXCHANGE

GO-LIVE APPROVAL

Polly Mullins-Bentley (Executive Director or Deputy Executive Director of GOEHI) reviewed the Data Provider Go-Live Checklist for [REDACTED] **Center** (Participating Provider) on the **1st** day of **August**, 20**13**. The director, finding the checklist to be complete, as to the data currently being provided, and validated by a KHIE data provider for the following indicated transactions:

<input type="checkbox"/> ADT	<input checked="" type="checkbox"/> SYNDROMIC SURVEILLANCE
<input type="checkbox"/> TRANSCRIPTION	<input type="checkbox"/> RADIOLOGY
<input type="checkbox"/> LABORATORY	<input type="checkbox"/> REPORTABLE DISEASES
<input type="checkbox"/> MERGE	<input type="checkbox"/> IMMUNIZATIONS

Required signed agreements have been verified on 24th day of July, 2013.

Contact your onboarding analyst if you cannot locate it

- To meet the transitions of care objective for Stage 2 Meaningful Use, your EHR must have the capability to generate a summary of care record (CCDA) and send it electronically to 10% of transitions or referrals of care
 - Direct secure messaging (available now)
 - Provider->KHIE->Referral Partner (available later this year)

- 1) Certified EHR technology that supports sending and receiving of summary of care records (CCDA) via Direct secure messaging
- 2) A health information service provider (HISP) (i.e., Direct e-mail account)
 - Can use your EHR vendor's HISP (if available) or KHIE's HISP
 - HISP must be Direct-trust accredited (DTAAP)
- 3) Referral partners who can send and receive Direct secure messages

Think Strategically

We recommend identifying the select few referral partners that will help you achieve your 10% threshold

Contact referral partners Now

To notify them of your MU timeline and your need for them to be able to receive Direct secure messages

If your referral partner has an EHR

Verify that they are running 2014 certified software and are connected to a DTAAP-accredited HISP

If your referral partner does not have an EHR

KHIE is offering web portal that providers can use to communicate and share summary of care records securely with their referral partners that do not have an EHR

- ✓ You will need to sign the Participation Agreement and Direct Services addendum
- ✓ Onboard with KHIE for the Direct service

Achieving this objective requires significant effort and coordination among:

- Your referral partners
- Your EHR vendor
- KHIE

Do not wait until the last minute to determine your strategy!
